

The Writing Rainbow – this is a concept to aid writing.

### The FANTASTICs – the IDEAS OF WRITING

There are nine ideas that are like ‘the maths of writing’. They are the FANTASTICs: Feeling, Asking, Noticing, Touching, Action, Smelling, Tasting, Imagining and Checking. Locked into these nine lenses are the five senses eg checking = checking for sound.

### The Grammaristics – the GRAMMAR of writing

Grammar is taught and understood in the wider context, which is achieved through discrete lessons and then reinforced during sentence stacking lessons.

### The Boomtastics – the TECHNIQUES of writing

These help pupils make their writing “boom” off the page and include techniques such as alliteration, similes, metaphors and pathetic fallacy.

Each lesson focuses on a variety of “lenses” from the writing rainbow.
